STAY SAFE, STAY DRIVEN.

HOTLINE: 6631 1818

BUILT TO MOVE BUSINESSES

Robust and spacious for delivering maximum productivity

ABUNDANT SPACE AND UTILITY

Transport more on fewer trips

Maximise your payloads with a deck this generous in space. And for greater efficiency, the drop sides offer easy loading and unloading.

IMPROVED REAR SUSPENSION

Greater stability and strength

The semi-elliptic leaf spring rear suspension allows for enhanced productivity, stability, comfort, and safety even when delivering a full load of heavy cargo. And with a double wishbone and stabiliser, the front suspension ensures better manoeuvrability and handling—meaning every turn is smoother and under control!

AN ORGANISED INTERIOR

Designed for convenience and efficiency, the ergonomic cabin allows drivers to achieve better performance in comfort

IMPROVED ACCESSIBILITY

All you need, within reach

The upgraded ergonomic dashboard puts the frequently used buttons you use the closest to you, making your driving experience both convenient and intuitive.

DIESEL PARTICULATE FILTER (DPF) SYSTEM FOR CLEANER, BETTER DRIVES

Remove accumulated Particulate Matter (PM) trapped in the filter with the DPF switch:

1. When DPF indicator lights up, park the vehicle in a safe place as soon as possible, and leave the engine idling.
2. Put the transmission in neutral and engage the parking brake.
3. Press the DPF switch (as shown) to start the cleaning process. It will take approximately 15–40 minutes.
4. Once the cleaning is complete, the DPF indicator light will automatically switch off.

A SPACIOUS CABIN

Drive in better comfort

Thoughtfully designed with plenty of room, the spacious cockpit allows you for comfort and convenience in every drive. Enjoy a range of storage options and handy fold-over middle seat that lets you stay organised on the go!

Details and specifications may differ from pictures shown depending on the model.

GREATER PERFORMANCE

Power and reliability for your every need

EURO VI COMPLIANT 1GD-FTV ENGINE

Power without compromise

With a turbocharger and intercooler providing class-leading thermal efficiency and a higher torque at low engine speeds, the new 1GD-FTV engine achieves better fuel economy, quietness, power, and cleaner emissions. And with a maximum torque of 300Nm/3200rpm and maximum power output of 106kW/3,400rpm, you'll enjoy smoother acceleration and better performance from your unstoppable workhorse.

HIGHLY EFFICIENT TRANSMISSION

Easy to use, efficient, and reliable

Apart from manual transmission, the Hino Dutro also comes in an automatic transmission variant—the first of its kind across the Hino lineup!

Automatic Transmission

Manual Transmission

EXTENSIVE SAFETY

Drive with peace of mind

ANTI-LOCK BRAKING SYSTEM (ABS)

Stay in complete control

The Anti-Lock Braking System allows the driver to maintain steering control during emergency braking.

VEHICLE STABILITY CONTROL (VSC)

Greater stability on every turn

Twisting roads? No worries! Vehicle Stability Control enhances stability, even on the tightest turns.

TRACTION CONTROL (TRC)

No slips, just grip

The in-built Traction Control enhances stability on slippery roads and helps to prevent skidding.

DUAL AIRBAGS

Protection you can count on

Dual airbags help minimise impact and injury in emergency situations.

COLOUR VARIATIONS

White (058)

Silver Metallic (199)

Blue (8P0)
