

# The Vito 114 CDI Panel Van

## (Pro Version)

### INTERIOR

- |                             |                                       |                                                |
|-----------------------------|---------------------------------------|------------------------------------------------|
| • Locking glove compartment | • Comfort overhead control panel      | • Instrument cluster with pixel matrix display |
| • Roof lining               | • LED light strip in load compartment | • Wooden flooring in the rear                  |

### EXTERIOR

- |                                                  |                                          |                      |
|--------------------------------------------------|------------------------------------------|----------------------|
| • Exterior mirror, automatically folding         | • Bumpers body parts painted body colour | • Light alloy wheels |
| • Exterior mirror, heated, electrically adjusted | • LED tail lamps                         |                      |

### COMFORT

- |                                            |                                             |                                                   |
|--------------------------------------------|---------------------------------------------|---------------------------------------------------|
| • Mercedes-Benz multifunction audio system | • Height and rake adjustable steering wheel | • Multifunction steering wheel with trip computer |
| • ECO start / stop function                | • Air conditioning system, driver's cabin   | • Comfort driver's seat                           |
| • 7G-TRONIC PLUS                           | • Sliding door, left and right              | • Reversing camera                                |
| • Cruise control                           | • Hill-Start Assist                         |                                                   |

### SAFETY

- |                                                              |                                                           |                                                    |
|--------------------------------------------------------------|-----------------------------------------------------------|----------------------------------------------------|
| • Dynamic control system ESP 9i® (Electr. Stability Program) | • Windows in tailgate / rear door with wipe / wash system | • LED Intelligent Light System Headlight assistant |
| • 4 disc brakes                                              | • Airbag for driver and front passenger                   | • Rain sensor                                      |
| • Adaptive brake light                                       | • 3-point safety belt                                     | • ATTENTION ASSIST drowsiness detection            |

**5 YEAR** | Comprehensive Maintenance Package

The Mercedes-Benz Vito purchased from Cycle & Carriage Industries Pte Limited is entitled for the Comprehensive Maintenance Package, unless otherwise stated.

It covers mechanical, electrical as well as wear and tear items for 5 years or 150,000 km, whichever comes first. Terms and conditions apply.

Effective Date: 5 October 2021

Mercedes-Benz

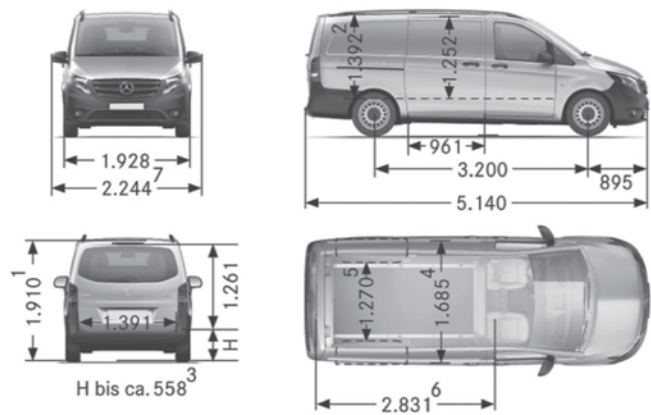

## Vehicle dimensions (mm)

Legend for illustration: All details in mm. Turning circle Ø approx. 11.8 m, track circle Ø approx. 11.1 m. <sup>1</sup>Vehicle height in conj. with optional roof rails + 48 mm. <sup>2</sup> Interior height. <sup>3</sup> Unladen.

<sup>4</sup> Maximum width of load / passenger compartment (measured on floor). <sup>5</sup> Clearance between the wheel arches. <sup>6</sup> Dimensions measured on vehicle floor. <sup>7</sup> 2060 with exterior mirrors folded in.

- Information in accordance with the version of Directive 92/21/EC applicable at time of going to print. (With driver 68 kg, luggage 7 kg, all service fluids and fuel tank 90% full). Equipment and/or equipment lines may produce an increase / decrease in the GVW and thus influence the payload.
- Combined. The figures shown were obtained in accordance with the prescribed measuring process (Regulation (EC) 715/2007 in the currently applicable version).
- Urban / extra-urban / combined. The figures shown were obtained in accordance with the prescribed measuring process (Regulation (EC) 715/2007 in the currently applicable version).

## Technical data

### Engine

|                                         |                                                                                           |
|-----------------------------------------|-------------------------------------------------------------------------------------------|
| Model series                            | OM651 DE22LA, Euro 6b N1 GR.III/N2 (MA6)                                                  |
| No. of cylinders / arrangement / valves | 4 / in-line / 4                                                                           |
| Bore / stroke / displacement            | 83 mm / 99 mm / 2143 cc                                                                   |
| Rated output                            | 100 kW (136 hp) at 3800 rpm                                                               |
| Rated torque                            | 330 Nm at 1200 – 2400 rpm                                                                 |
| Mixture preparation                     | Electronically controlled direct injection with common rail, turbocharger and intercooler |

### Tank / electrical system

|                           |                                                 |
|---------------------------|-------------------------------------------------|
| Tank capacity / fuel type | approx. 70 l / Diesel / + approx. 11.5 L AdBlue |
| Battery                   | 12 V / 92 Ah AGM battery                        |
| Alternator                | 14 V / 200 A                                    |

### Performance / fuel consumption

|                                        |                                                          |
|----------------------------------------|----------------------------------------------------------|
| Acceleration 0-100 km/h                | 12.8 sec                                                 |
| Top speed                              | 184 km/h                                                 |
| Fuel Consumption <sup>3</sup>          | 7.1 / 5.4 / 6.0 l / 100 km (with BlueEFFICIENCY package) |
| CO <sub>2</sub> emissions <sup>2</sup> | 158 g/km (with BlueEFFICIENCY package)                   |

### Power transmission

|              |                                                                          |
|--------------|--------------------------------------------------------------------------|
| Drive System | Rear-wheel drive                                                         |
| Clutch       | Converter                                                                |
| Transmission | automatic 7-speed (7G-TRONIC PLUS)                                       |
| Gear ratios  | 4.377 / 2.859 / 1.921 / 1.368 / 1.0 / 0.820 / 0.728 Reverse 3.42 / 2.231 |
| Final drive  | 3,267                                                                    |

### Suspension

|            |                                                                                                                                                            |
|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Front axle | Independent suspension; MacPherson suspension with stabiliser, coil springs and shock absorber                                                             |
| Rear axle  | Independent suspension; Semi-trailing arm rear suspension with coil springs and shock absorber                                                             |
| Wheels     | Light-alloy wheel; 6,5J X 16 ET52; Tyres 205 / 65 R 16C                                                                                                    |
| Steering   | Speed-sensitive electrically assisted power steering                                                                                                       |
| Brakes     | Hydr. dual-circuit brake with vacuum booster; 4 disc brakes, front discs internally ventilated; Dynamic control system ESP 9i® (Electr. Stability Program) |

### Weights in kg

|                                            |                     |
|--------------------------------------------|---------------------|
| Kerb weight <sup>1</sup> (FA / RA / total) | 1113 / 687 / 1800   |
| Payload                                    | 1250                |
| Permissible axle loads (FA / RA)           | 1550 / 1650         |
| Permitted GVW / GCW                        | 3050 / 5050         |
| Towing capacity, braked / unbraked         | 2000 / max. 750     |
| Drawbar load / roof load                   | max. 100 / max. 150 |

All prices and specifications are subject to change without prior notice. For a wider range of equipment and accessories available, please approach our sales specialists. All vehicles are covered by Cycle & Carriage with a 5-year Exclusive Warranty or 150,000 km, whichever is earlier from the date of registration. Prices quoted are inclusive of 6-months road tax, registration fee, number plates and GST, but without insurance. <http://www.mercedes-benz.com.sg/vans>
